LUCE TU EXECUTIVE

LIGHT FOR PROFESSIONAL SPACES

WHERE FUNCTION MEETS ELEGANCE

LUCE TU EXECUTIVE nasce per gli spazi direzionali e di rappresentanza, dove la luce è parte integrante del progetto. Sistemi luminosi ad alte performance garantiscono comfort visivo e precisione tecnica, dialogando con architetture e arredi di alto livello.

La componente tecnica si unisce alla lavorazione artigianale e all'uso di materiali nobili, come l'ottone e le finiture realizzate a mano.

Il risultato è una luce che non solo illumina, ma definisce identità, atmosfera e prestigio.

LUCE TU EXECUTIVE is designed for executive and representative spaces, where light becomes an integral part of the project. High-performance lighting systems ensure visual comfort and technical precision, while integrating with high-end interiors.

Technical performance meets craftsmanship through noble materials such as brass and hand-finished details.

The result is lighting that not only illuminates, but defines identity, atmosphere and prestige.

Tutte le quote e i disegni tecnici riportati nel presente catalogo sono da considerarsi indicativi. Trattandosi di prodotti artigianali, ogni lampada è realizzata singolarmente e potrebbe presentare lievi variazioni dimensionali e/o estetiche rispetto a quanto illustrato.

All dimensions and technical drawings shown in this catalogue are to be considered indicative. As these are handcrafted products, each lamp is individually made and may present slight variations in size and/or appearance compared to what is illustrated.
